

EKU Academic Readiness & Course Placement Indicators for English + Reading & Math ~ AY 2019-2020

Beginning Fall 2019-20, EKU will use these indicators of readiness as established by the Council on Postsecondary Education as measure of college-level Academic Readiness. Upon admission to a public postsecondary institution, students scoring at or above the established benchmarks will not be required to complete Academic Readiness courses or corresponding co-requisite support courses. However, all students admitted to EKU will be allowed entry into college credit-bearing Academic Readiness coursework that counts toward credit requirements and degree completion. *Italicized notes indicate when a student should be placed into an Academic Readiness course.* Advisors and mentors are encouraged to steer students toward EKU placement testing, as needed, if students have not already completed those assessments. Remember: All admitted or enrolled EKU students may attempt EKU Placement Testing twice, even if they are attempting to place out of a failed Academic Readiness class.

Message from the Council on Postsecondary Education: Per the College Readiness Indicators Work Group, all exam scores remain an indicator of academic readiness for a minimum of twelve (12) months from the date of administration. Individual institutions may extend the length of time scores remain indicators of academic readiness. *However, an institution shall not determine academic readiness using scores received from exams taken more than four (4) years prior. Other exams, prior college coursework, and placement exams may be used for course placement after a student is admitted to a postsecondary institution.*
